B: VETERINARY HEALTH AND MEAT INSPECTION CERTIFICATE

I, a veterinarian authorised thereto by the Veterinary Authority of the Republic of South Africa hereby certify that the meat described in Section A:

B1. Animal Health Requirements:

1. Was derived from animals which:
 - 1.1 are of bovine, ovine and/or caprine species of South African origin
 - 1.2 originate from the OIE recognized Foot and mouth disease free zone of South Africa and from farms not under veterinary restriction for FMD control or any disease to which the species is susceptible.
 - 1.3 were not vaccinated against Foot-and-Mouth Disease.
 - 1.4 were not exposed to animals from non-approved areas;
2. The Republic of South Africa is historically free from Rinderpest, East Coast Fever, Vesicular Stomatitis, Scrapie, and Bovine Spongiform Encephalitis.

B2. Veterinary Public Health Requirements

1. The animals from which the meat was derived were subjected to both ante-and post-mortem veterinary inspection, found to be free from signs of disease and that such carcasses or meat are sound and wholesome and unconditionally passed fit for human consumption.
2. The animals were slaughtered, and the meat handled/cut/processed and packed, at the establishment(s) mentioned in section A, being an establishment(s) recommended by the National Director of Veterinary Services for export to Namibia; who must be notified of any change in management and veterinary supervision of the abattoir/plant.
3. Directly following post mortem inspection the meat was chilled to a deep temperature not exceeding plus 7°C (+7 °C);
4. Prior to shipment, trimmings and anatomically unrecognisable cuts were sampled (not less than 1g per 1000 kg) and fall within the following microbiological limits:

Standard plate count	1x 10 ⁶ /g	<i>Staphylococcus</i> 1x 10 ⁴ /g
Coliforms	1x10 ⁴ /g	<i>Salmonella</i> 1x 10 ² /g
<i>E. coli</i>	2x 10 ³ /g	

A maximum of five samples may be pooled for testing purposes.

5. The meat was not subjected to ionizing irradiation;
 6. All carcasses/parts packaging/wrapping bear the official inspection stamp of the slaughtering/cutting plant at which the animals were slaughtered and the meat handled. The marks on the meat are only made with safe, edible ink approved by the Director of Public Health and the slaughter date must be clearly marked on all packaging.
- Slaughter date
7. At the time of loading, the meat complied with one of the following temperature requirements:
 - meat and offal stored for less than 3 months was maintained at minus 10°C or less
 - meat and offal stored for longer than 3 months was maintained at minus 18°C or less
 - Chilled meat was maintained at between 0°C and 7°C
 8. Exposed meat and cartons were not loaded together (in the same load space)
 9. The vehicle transporting the meat conforms to accepted standards of cleanliness, construction, maintenance and operation and is equipped with a continuously registering thermograph.
 10. The exporter and the transporter is aware that the temperature of the meat and offal during transport must never exceed the storage temperatures as indicated in B2 - 7. Thermographs to prove this must be supplied to the State veterinarian at the inspection point.
 11. The meat was loaded and the truck/container sealed immediately after loading at the approved facility, under my supervision.

B: VETERINARY HEALTH AND MEAT INSPECTION CERTIFICATE

I, a **veterinarian**
authorised thereto by the Veterinary Authority of (name of country) hereby certify that
in respect of the meat described in **Section A**:

1. The country has been free from Foot and mouth disease, Vesicular Stomatitis, African Swine Fever and Swine Vesicular Disease for the previous six months.
2. The meat was derived from animals which:
 - 2.1 were born, raised and slaughtered in the exporting country;
 - 2.2 were not vaccinated with Hog Cholera vaccine within two months of slaughter;
 - 2.3 originate from an area where no case of Hog Cholera and Enterovirus encephalomyelitis of swine (Teschin disease) occurred within a radius of 50 km of any of the farms of origin during the previous six (6) months;
 - 2.4 were slaughtered, and the meat handled/cut/processed and packed, at the establishment(s) mentioned overleaf being establishment(s) approved by the Director of Veterinary Services of Namibia and; in which no animals not complying with the Namibian import requirements are slaughtered.
 - 2.5 were not slaughtered in any disease eradication campaign;
 - 2.6 were subjected to both official ante-and post-mortem veterinary inspection which included examination of feet and tongues, found to be free from signs of disease and that such carcasses of meat are sound and wholesome and unconditionally passed fit for human consumption
 - 2.7 directly following post mortem inspection the meat was chilled to a deep temperature not exceeding plus 7°C (+7°C)
3. the meat was handled and transported hygienically at all times; and that precautions were taken to prevent contamination from carcasses not meeting the conditions as stated, during slaughter, packing and loading.
4. the carcasses from which the pork originates: * - originate from an area free from trichinellosis **OR** * - were examined and found free from trichinae, **OR** * - the pork has been subjected to a temperature not exceeding minus 25°C (-25°C) for a continuous period of not less than 30 days.
5. All carcasses/parts/wrapping/packaging bear the official stamp(s) of the abattoir/cutting/packing plant(s) at which the animals were slaughtered and the meat handled. The marks on the meat are only made with safe, edible ink approved by the Director of Public Health and the slaughter date must be clearly marked on all packaging.

Slaughter date

6. Pre-shipment samples of meat in the form of anatomically unrecognisable cuts (not less than one sample per 1000 kg. of meat; a maximum of five samples may be pooled for testing purposes) did not exceed the following microbiological limits:

Standard plate count	1x10⁶/g	Staphylococcus aureus	1x10⁴/g
Coliforms	1x10⁴/g	Salmonellae typhi / enteritidis	zero
E. coli	2x10³/g	Salmonellae (other than above)	1x10²/g

7. The meat was not subjected to ionizing irradiation;
8. The meat was containerized and sealed under official veterinary supervision on.....(date)

Container/vehicle number..... Seal Number/s

II. Origin of meat:

Address(es) and veterinary approval No(s) of the approved wild game processing house(s):
FARMERS MEAT MARKET ABATTOIR, P.O.BOX 862, MARIENTAL. NAMIBIA.
EU VETERINARY APPROVAL NO 21

Address(es) and veterinary approval No(s) of the approved cutting plant(s):
FARMERS MEAT MARKET ABATTOIR, P.O.BOX 862, MARIENTAL. NAMIBIA.
EU VETERINARY APPROVAL NO 21.

Address(es) and veterinary approval No(s) of the approved cold store(s):
FARMERS MEAT MARKET ABATTOIR, P.O.BOX 862, MARIENTAL. NAMIBIA.
EU VETERINARY APPROVAL NO 21.

Address(es) of place(s) of loading :
FARMERS MEAT MARKET ABATTOIR, P.O.BOX 862, MARIENTAL. NAMIBIA.

Name and address of consignor:
FARMERS MEAT PACKERS (PTY) LTD, C/O FARMERS MEAT MARKET ABATTOIR,
P.O.BOX 862, MARIENTAL. NAMIBIA.

III. Destination of meat:

Name and address of consignee: BM FOOD, KIRKEVEIEN 71A, POSTBOKS 102, N-1305 HASLUM. OSLO. NORWAY.

The meat will be sent to (country and place of destination): OSLO, NORWAY.
by the following means of transport ⁽⁶⁾:

Railway wagon	Lorry	Aircraft	Ship
			CONTAINER NO: MAEU5686077 SEAL NO: ML-NA0008766

Name and address of game processing house of destination: ⁽⁷⁾ Not applicable

⁽¹⁾ Excluding offal.

⁽²⁾ Issued by the competent authority.

⁽³⁾ Name of country of origin which must be the same as the country of export.

⁽⁴⁾ Delete as appropriate.

⁽⁵⁾ In the game processing house of destination in a Member State the meat must be skinned and then undergo a post-mortem inspection. It cannot bear the Health mark unless it has been declared fit for human consumption.

⁽⁶⁾ For railway wagons or lorries, the registration number should be given, where known. For bulk containers indicate the number of the container. The number of the seal must also be indicated.

⁽⁷⁾ Where the meat has to undergo a post-mortem inspection after skinning, the name and address of the game processing house of destination in the Member State must be inserted.

IV. Health information:

I, the undersigned, official veterinarian, certify that:

1. The territory described in Annex I to Commission Decision 2000/585/EC with code NA-01 version No 01/00 ⁽⁸⁾ has been free from foot-and-mouth disease and rinderpest for the previous 12 months, and during the same period, no vaccination against any of these diseases has taken place.
2. The wild game meat described above:
 - (a) was obtained from animals which were killed in the territory as referred to under Section IV.1 and in a hunting area where during the last 60 days there have been no animal health restrictions because of outbreaks of disease to which game animals are susceptible;
 - (b) originated from animals that were killed at least 20 km distant from the borders of another third country or part of a third country not authorised to export wild game meat to the Community;
 - (c) was obtained from animals, which were transported within 12 hours of killing to a collection centre and / or approved wild game processing house for chilling;
 - (d) was handled in a collection centre and / or an approved wild game processing house situated in an area not subject to animal health restrictions for list A diseases of the Office International des Epizooties to which the animals are susceptible;
 - (e) has during all stages of its production, been handled, stored and transported in accordance with the public health requirements of Council Directive 92/45/EEC and strictly separated from meat:
 - > not conforming to the requirements laid down in Directive 92/45/EEC,
 - > not conforming to the requirements laid down in Decision 2000/585/EC.
3. In the case of fresh meat or skinned and eviscerated or deboned and skinned wild game, the meat has undergone a post-mortem inspection at the approved wild game processing house in accordance with the requirements of Directive 92/45/EEC, has been passed as fit for human consumption, and an equivalent health mark as laid down according to Chapter VII of Annex I to Directive 92/45/EEC has been applied to the meat and packaging ⁽⁴⁾.
4. In the case of unskinned large game ⁽⁴⁾,
 - (a) the viscera have undergone a post-mortem inspection in a wild game processing house, which did not lead to the carcass being judged unfit for human consumption;
 - (b) the carcasses:-
 - (i) - are intended to be transported to the final game processing house of destination to arrive within seven days of post-mortem inspection, and
 - were chilled to, and maintained at, between -1 °C and +7 °C, before being loaded into a vehicle capable of maintaining the carcasses at these temperatures during transport ⁽⁴⁾;
 - or
 - (ii) - are intended to be transported to the final game processing house of destination to arrive within 15 days of post-mortem inspection, and
 - were chilled to, and maintained, between -1 °C and +1 °C, before being loaded into a vehicle capable of maintaining the carcasses at these temperatures during transport ⁽⁴⁾;
 - (c) measures have been taken to allow for the clear identification of the meat by fixation of an official mark of origin, the details of which are recorded in paragraph I above.
5. The transport vehicles or containers and loading conditions of this consignment meet the hygiene requirements laid down in Directive 92/45/EEC.
6. The meat was obtained from wild game which was killed between and (dates of killing).

V. Specific conditions:

I, the undersigned, official veterinarian, certify that:

1. The bones and the main lymphatic glands of the wild game meat, excluding offal, described above, have been removed in accordance with the requirements of Council Directive 92/45/EEC.
2. The deboned fresh meat described above originates from carcasses:-
 - > which have matured at an ambient temperature of more than +2°C for at least 24 hours before the bones were removed.
 - and
 - > which had the major lymphatic glands removed.

Having regard to the Treaty establishing the European Community,

Having regard to Council Directive 91/494/EEC of 26 June 1991 on animal health conditions governing intra-Community trade in and imports from third countries of fresh poultry meat⁽¹⁾, as amended by Directive 1999/89/EC⁽²⁾, and in particular Articles 11, 12 and 14 thereof,

Having regard to Council Directive 92/118/EEC of 17 December 1992 laying down animal health and public health requirements governing trade in and imports into the Community of products not subject to the said requirements laid down in specific Community rules referred to in Annex A, Chapter I, to Directive 89/662/EEC and, as regards pathogens, to Directive 90/425/EEC⁽³⁾, as last amended by Directive 97/79/EC⁽⁴⁾, and in particular Article 10 thereof,

Having regard to Council Directive 92/45/EEC of 16 June 1992 on public health and animal health problems relating to the killing of wild game and the placing on the market of wild game meat⁽⁵⁾, as last amended by Directive 97/79/EC, and in particular Article 16(2)(c) and (3) thereof,

(1) Commission Decision 97/217/EC⁽⁶⁾ as last amended by Decision 2000/161/EC⁽⁷⁾, establishes groups of third countries which are able to utilise the veterinary certification for imports of wild game meat, farmed game meat and rabbit meat from third countries.

(2) Commission Decision 97/218/EC⁽⁸⁾ lays down animal and public health conditions and veterinary certification for imports of wild game meat (excluding meat of wild swine) from third countries.

(3) Commission Decision 97/219/EC⁽⁹⁾ as last amended by Decision 2000/162/EC⁽¹⁰⁾ lays down animal and public health conditions and veterinary certification for imports of farmed game meat and rabbit meat from third countries.

(4) Commission Decision 97/220/EC⁽¹¹⁾ lays down animal and public health conditions and veterinary certification for imports of meat of wild swine from third countries.

(5) In order to facilitate the consultation and the transparency of the European Union legislation and to

⁽¹⁾ OJ L 268, 24.9.1991, p. 35.

⁽²⁾ OJ L 300, 23.11.1999, p. 17.

⁽³⁾ OJ L 62, 15.3.1993, p. 49.

⁽⁴⁾ OJ L 24, 30.1.1998, p. 31.

⁽⁵⁾ OJ L 268, 14.9.1992, p. 35.

⁽⁶⁾ OJ L 88, 3.4.1997, p. 20.

⁽⁷⁾ OJ L 51, 24.2.2000, p. 38.

⁽⁸⁾ OJ L 88, 3.4.1997, p. 25.

⁽⁹⁾ OJ L 88, 3.4.1997, p. 45.

⁽¹⁰⁾ OJ L 51, 24.2.2000, p. 37.

⁽¹¹⁾ OJ L 88, 3.4.1997, p. 70.

update the animal and public health conditions and veterinary certification for import of wild and farmed game meat and rabbit meat from third countries, it is considered necessary to create a single decision; therefore, Commission Decisions 97/217/EC, 97/218/EC, 97/219/EC and 97/220/EC must be repealed.

- (6) Considering that a new certification regime must be implemented for the exporting countries concerned, a period of time should be provided for its implementation.
- (7) This Decision shall be reviewed in the light of developments in the animal health status of the territories of origin and, in particular, in the frame of the application of agreements between the Community and third countries concerning the matters covered by this Decision, notably as concerns Article 5 of the Agreement between the European Community and the Government of Canada on sanitary measures to protect public and animal health in respect of trade in live animals and animal products and Article 6 of the Agreement between the European Community and the United States of America on sanitary measures to protect public and animal health in trade in live animals and animal products.
- (8) The measures provided for in this Decision are in accordance with the opinion of the Standing Veterinary Committee,

HAS ADOPTED THIS DECISION:

Article 1

For the purpose of this Decision 'farmed game birds' means quail, pigeons, pheasants, partridges and any other game birds. It excludes fowl, turkeys, guinea fowls, ducks, geese and ratites.

Article 2

1. Member States shall authorise imports of the categories of fresh meat as follows:

- meat, excluding offal, of wild cloven-hoofed game, excluding wild swine,
- meat of farmed cloven-hoofed game, excluding farmed wild swine,
- meat, excluding offal, of wild swine,
- meat of farmed wild swine,
- meat of wild game bird, excluding offal except for unplucked and uneviscerated game birds,

- meat of farmed game birds,
- meat, excluding offal, of wild soliped, defined as zebra meat,
- meat of wild *leporidae*, defined as rabbits and hares, excluding offal except for unskinned and uneviscerated *leporidae*,
- meat of farmed rabbits,
- meat, excluding offal, of wild land mammals, excluding wild ungulates and *leporidae*,

and coming from the territories laid down in Annex I, if they comply with the conditions laid down in the relevant health certificate drawn up in Annex III, as provided for in Annex II to the present Decision.

2. Member States shall authorise the introduction onto their territory of wild and farmed game meat and rabbit meat from the country of origin subject to the special conditions required in Annex II and described in Annex IV. These specific conditions must be provided by the exporting country in Section V of each model of certificate laid down in Annex III.

Article 3

This Decision shall come into effect 60 days after its publication in the *Official Journal of the European Communities*.

Article 4

1. Commission Decisions 97/217/EC, 97/218/EC, 97/219/EC and 97/220/EC are repealed on the same date the present Decision will come into force, as mentioned in Article 3.

2. Member States shall authorise the importation of fresh meat covered by the present Decision, produced and certified according to the requirements of Commission Decisions 97/217/EC, 97/218/EC, 97/219/EC and 97/220/EC during the 35 days following the date mentioned in Article 3.

Article 5

This Decision is addressed to the Member States.

Done at Brussels, 7 September 2000.

For the Commission

David BYRNE

Member of the Commission

ANNEX I

Description of territories of certain third countries established for animal health certification purposes

Country	Code of territory	Version	Description of territory
Argentina	AR-1	—	As described in Annex I to Commission Decision 93/402/EC ⁽¹⁾ (as last amended)
	AR-2	—	As described in Annex I to Commission Decision 93/402/EC (as last amended)
	AR-3	—	As described in Annex I to Commission Decision 93/402/EC (as last amended)
	AR-4	—	As described in Annex I to Commission Decision 93/402/EC (as last amended)
Bulgaria	BG-1	—	As described in Annex I to Commission Decision 98/371/EC ⁽²⁾ (as last amended)

(¹) MC: model certificate to be completed. The letters (A, B, C, D, etc.) appearing in the tables refer to the models of animal health guarantees, as described in Annex III to the present Decision, to be applied for each category of fresh meat and origin in accordance with Article 2 of this Decision. A dash "—" indicates that imports are not authorised.

(²) SC: specific conditions. The numbers (1, 2, 3, etc.) appearing in the table refer to the special conditions to be provided by the exporting country as described in Annex IV. These supplementary guarantees must be inserted by the exporting country in Section V of each model of certificate set down in Annex III.

ANNEX III

MODEL A

ANIMAL AND PUBLIC HEALTH CERTIFICATE

Meat⁽¹⁾ of wild cloven-hoofed game, (excluding wild swine) intended for consignment to the European Community

Note for the importer: this certificate is only for veterinary purposes and has to accompany the consignment until it reaches the border inspection point.

Code No⁽²⁾

Country of destination:

Exporting country⁽³⁾: Code of territory:

Ministry:

Competent issuing authority:

I. Identification of meat

Lot No	Species	Nature of meat	Nature of cuts	Nature of packaging	Number of cuts or packages	Net weight	Origin identification mark for unskinned and eviscerated game meat ⁽⁵⁾
		Fresh meat ⁽⁴⁾					
		Skinned and eviscerated large game ⁽⁴⁾					
		Unskinned and eviscerated large game ⁽⁴⁾ ⁽⁵⁾					
		Deboned and skinned meat ⁽⁴⁾					

II. Origin of meat

Address(es) and veterinary approval No(s) of the approved wild game processing house(s):

Address(es) and veterinary approval No(s) of the approved cutting plant(s):

Address(es) and veterinary approval No(s) of the approved cold store(s):

⁽¹⁾ Excluding offal.

⁽²⁾ Issued by the competent authority.

⁽³⁾ Name of the country of origin which must be the same as the country of export.

⁽⁴⁾ Delete as appropriate.

⁽⁵⁾ In the game processing house of destination in a Member State the meat must be skinned and then undergo a post-mortem inspection it cannot bear the health mark unless it has been declared fit for human consumption.

Address(es) of place(s) of loading:

Name and address of consignor:

III. Destination of meat

Name and address of consignee:

The meat will be sent to (country and place of destination):

by the following means of transport ⁽⁶⁾:

Railway wagon	Lorry	Aircraft	Ship

Name and address of game processing house of destination ⁽⁷⁾:

IV. Health information:

I, the undersigned, official veterinarian, certify that:

1. The territory described in Annex I to Commission Decision 2000/585/EC with code ... version No ... ⁽⁸⁾ has been free from foot-and-mouth disease and rinderpest for the previous 12 months, and during the same period, no vaccination against any of these diseases has taken place.
2. The wild game meat described above:
 - (a) was obtained from animals which were killed in the territory as referred to under Section IV.1 and in a hunting area where during the last 60 days there have been no animal health restrictions because of outbreaks of disease to which game animals are susceptible;
 - (b) originated from animals that were killed at least 20 km distant from the borders of another third country or part of a third country not authorised to export wild game meat to the Community;
(- NAMIBIA - 642)
 - (c) was obtained from animals, which were transported within 12 hours of killing to a collection centre and/or approved wild game processing house for chilling;
 - (d) was handled in a collection centre and/or an approved wild game processing house situated in an area not subject to animal health restrictions for list A diseases of the 'Office International des Epizooties' to which the animals are susceptible;
 - (e) has during all stages of its production, been handled, stored and transported in accordance with the public health requirements of Council Directive 92/45/EEC and strictly separated from meat:
 - not conforming to the requirements laid down in Directive 92/45/EEC,
 - not conforming to the requirements laid down in Decision 2000/585/EC.

⁽⁶⁾ For railway wagons or lorries, the registration number should be given, where known. For bulk containers indicate the number of the container. The number of the seal must also be indicated.

⁽⁷⁾ Where the meat has to undergo a post-mortem inspection after skinning, the name and address of the game processing house of destination in the Member State must be inserted.

⁽⁸⁾ When there is a cross-reference in Annex I to Commission Decision 2000/585/EC, then the version No referred to in the relevant and current Decision for fresh meat of the corresponding susceptible domestic species must be included.

3. In the case of fresh meat or skinned and eviscerated or deboned and skinned wild game, the meat has undergone a post-mortem inspection at the approved wild game processing house in accordance with the requirements of Directive 92/45/EEC, has been passed as fit for human consumption, and an equivalent health mark as laid down according to Chapter VII of Annex I to Directive 92/45/EEC has been applied to the meat and packaging ^(*).
4. In the case of unskinned large game ^(*),
- (a) the viscera have undergone a post-mortem inspection in a wild game processing house, which did not lead to the carcase being judged unfit for human consumption;
- (b) the carcasses
- (i) — are intended to be transported to the final game processing house of destination to arrive within seven days of post-mortem inspection, and *(NAMIBIA 72 hrs - own rules)*
— were chilled to, and maintained at, between -1 °C and +7 °C, before being loaded into a vehicle capable of maintaining the carcasses at these temperatures during transport ^(*);
- or
- (ii) — are intended to be transported to the final game processing house of destination to arrive within 15 days of post-mortem inspection, and
— were chilled to, and maintained, between -1 °C and +1 °C, before being loaded into a vehicle capable of maintaining the carcasses at these temperatures during transport ^(*);
- (c) measures have been taken to allow for the clear identification of the meat by fixation of an official mark of origin, the details of which are recorded in paragraph 1 above.
5. The transport vehicles or containers and loading conditions of this consignment meet the hygiene requirements laid down in Directive 92/45/EEC.
6. The meat was obtained from wild game which was killed between ... and ... (dates of killing).

V. Specific conditions

I, the undersigned, official veterinarian, certify that:

(Specific conditions when required in Annex II and described in Annex IV to Decision 2000/585/EC) ^(*)

Done at
(place) (date)

.....
(signature of official veterinarian ^(*))

.....
(name in capital letters, title and qualification of signatory)

^(*) The signature and the seal must be in a different colour from that of the printing.

MODEL B

ANIMAL AND PUBLIC HEALTH CERTIFICATE

Wild soliped meat ⁽¹⁾ intended for consignment to the European Community

Note for the importer: this certificate is only for veterinary purposes and has to accompany the consignment until it reaches the border inspection point.

Code No ⁽²⁾

Country of destination:

Exporting country ⁽³⁾: Code of territory:

Ministry:

Competent issuing authority:

I. Identification of zebra meat

Lot No	Nature of meat	Nature of cuts	Nature of packaging	Number of cuts or packages	Net weight

II. Origin of meat

Address(es) and veterinary approval number(s) of the approved wild game processing house(s):

.....

Address(es) and veterinary approval number(s) of the approved cutting plant(s):

.....

Address(es) and veterinary approval number(s) of the approved cold store(s):

.....

Address(es) of place(s) of loading:

.....

Name and address of consignor:

.....

⁽¹⁾ Defined as zebra meat excluding offal.⁽²⁾ Issued by the competent authority.⁽³⁾ Name of the country of origin which must be the same as the country of export.

III. Destination of meat

Name and address of consignee:

The meat will be sent to (country and place of destination):

by the following means of transport (*):

Railway wagon	Lorry	Aircraft	Ship

IV. Health information

I, the undersigned, official veterinarian, certify that:

1. The zebra meat described above:

- (a) was obtained from wild zebras that were killed in the territory described in Annex I to Commission Decision 2000/585/EC with code ... version No ...^(*);
- (b) was obtained from animals which were transported within 12 hours of killing to a collection centre and/or an approved wild game processing house for chilling;
- (c) was handled in a collection centre and/or an approved wild game processing house situated in a region not subject to animal health restrictions for list A diseases of the Office International des Epizooties to which the animals are susceptible;
- (d) has, during all stages of its production, been handled, stored and transported in accordance with the public health requirements of Directive 92/45/EEC and strictly separated from meat:
 - not conforming to the requirements laid down in Directive 92/45/EEC,
 - not conforming to the requirements laid down in Decision 2000/585/EC.
- (e) has undergone a post-mortem inspection at the approved wild game processing house in accordance with the requirements of Directive 92/45/EEC and has been passed as fit for human consumption and an equivalent health mark as laid down according to Chapter VII of Annex I to Directive 92/45/EEC has been applied to the meat and packaging.

2. The transport vehicles or containers and loading conditions of this consignment meet the hygiene requirements laid down in Directive 92/45/EEC.

3. The meat has undergone a trichinae examination by a digestion method in accordance with Council Directive 77/96/EEC with a negative result.

4. The meat is obtained from wild zebras which were hunted between ... and ... (dates of hunting).

(*) For railway wagons or lorries, the registration number should be given, where known. For bulk containers indicate the number of the container. The number of the seal must also be indicated.

(†) When there is a cross-reference in Annex I to Commission Decision 2000/585/EC, then the version No referred to in the relevant and current Decision for fresh meat of the corresponding susceptible domestic species must be included.

V. Specific conditions

I, the undersigned, official veterinarian, certify that:

.....
(Specific conditions when required in Annex II and described in Annex IV to Decision 2000/585/EC) ⁽⁶⁾

Done at
(place) (date)

.....
(signature of official veterinarian ⁽⁷⁾)

Name and address of consignee:

The meat will be sent to: (country and place of destination)

by the following means of transport ⁽⁶⁾:

Railway wagon	Lorry	Aircraft	Ship

Name and address of game processing house of destination ⁽⁷⁾:

IV. Health information

I, the undersigned, official veterinarian, certify that:

1. The wild *leporidae* meat described above:

- (a) was obtained from animals which were killed in the territory described in Annex I to Commission Decision 2000/585/EC with code ... version No ... ⁽⁸⁾ and in a hunting area where during the last 40 days no animal health restrictions for viral haemorrhagic disease, tularemia and myxomatosis have been applied;
- (b) was obtained from animals which were transported within 12 hours of killing to a collection centre and/or approved wild game processing house for chilling;
- (c) was handled in a collection centre and/or an approved wild game processing house situated in an area not subject to animal health restrictions for list A diseases of the 'Office International des Epizooties' to which the animals are susceptible;
- (d) has during all stages of its production, been handled, stored and transported in accordance with the public health requirements of Directive 92/45/EEC and strictly separated from meat:
 - not conforming to the requirements laid down in Directive 92/45/EEC,
 - not conforming to the requirements laid down in Decision 2000/585/EC.

⁽⁶⁾ For railway wagons or lorries, the registration number should be given, where known. For bulk containers indicate the number of the container. The number of the seal must also be indicated.

⁽⁷⁾ Where the meat has to undergo a post-mortem inspection after skinning, the name and address of the game processing house of destination in the Member State must be inserted.

⁽⁸⁾ When there is a cross-reference in Annex I to Decision 2000/585/EC, then the version No referred to in the relevant and current Decision for fresh meat of the corresponding susceptible domestic species must be included.

2. In the case of fresh meat or skinned and eviscerated wild *leporidae* the meat has undergone a post-mortem inspection at the wild game processing house in accordance with the requirements of Directive 92/45/EEC, has been passed as fit for human consumption, and an equivalent health mark as laid down in Directive 92/45 EEC has been applied to the meat and packaging (*).
3. In the case of unskinned and uneviscerated wild *leporidae* (*),
 - (a) the meat has been chilled to or below +4 °C for a maximum time of 15 days prior to the intended time of import, but has not been frozen or deep-frozen;
 - (b) an official veterinary health inspection on a representative sample of the carcasses has been carried out, and
 - no abnormalities were detected other than injuries associated with hunting and minor localised malformations and anomalies with no public health significance,
 - or
 - signs of disease or other abnormalities, as detailed in Annex I, Chapter V, to Council Directive 92/45/EEC, which rendered the carcasses unfit for human consumption were detected, as a result of which the remainder of the consignment has been inspected and all affected carcasses excluded from export;
 - (c) the meat has been identified by the fixation of an official mark of origin, the details of which are recorded in paragraph I above.
4. The meat has been produced in accordance with the provisions of Directive 92/45/EEC, Annex I, as they apply to meat of wild *leporidae*.
5. The transport vehicles or containers and loading conditions of this consignment meet the hygiene requirements laid down in Directive 92/45/EEC.
6. The meat was obtained from wild *leporidae* which were hunted between ... and ... (dates of hunting).

MODEL D

ANIMAL AND PUBLIC HEALTH CERTIFICATE

Wild game bird meat ⁽¹⁾ intended for consignment to the European Community

Note for the importer: this certificate is only for veterinary purposes and has to accompany the consignment until it reaches the border inspection point.

Code No ⁽²⁾

Country of destination:

Exporting country ⁽³⁾: Code of territory:

Ministry:

Competent issuing authority:

I. Identification of meat

Lot No	Species	Nature of meat	Nature of cuts	Nature of packaging	Number of cuts or packages	Net weight	Origin identification mark for unplucked and eviscerated wild game birds ⁽⁴⁾
		Fresh meat ⁽⁴⁾					
		Plucked and eviscerated game birds ⁽⁴⁾					
		Unplucked and eviscerated game birds ⁽⁴⁾					

II. Origin of meat

Address(es) and veterinary approval number(s) of the approved wild game processing house(s):

Address(es) and veterinary approval number(s) of the approved cutting plant(s):

Address(es) and veterinary approval number(s) of the approved cold store(s):

⁽¹⁾ Excluding offal except for unplucked and eviscerated game birds.

⁽²⁾ Issued by the competent authority.

⁽³⁾ Name of the country of origin which must be the same as the country of export.

⁽⁴⁾ Delete as appropriate.

Address(es) of place(s) of loading:

Name and address of consignor:

III. Destination of meat

Name and address of consignee:

The meat will be sent to (country and place of destination):

by the following means of transport⁽³⁾:

Railway wagon	Lorry	Aircraft	Ship

IV. Health information

I, the undersigned, official veterinarian, certify that:

1. The wild game bird meat described above:

- (a) was obtained from wild game birds that were killed in the territory described in Annex I to Commission Decision 2000/585/EC with code ... version No ...⁽⁴⁾ where, during the last 30 days, there have been no animal health restrictions because of outbreaks of avian influenza or Newcastle disease;
- (b) is obtained from animals, which after killing, were transported within 12 hours to a collection centre and/or an approved wild game processing house for chilling;
- (c) comes from a collection centre and/or an approved wild game processing house, which at the time of dressing, is/are not under restrictions due to a suspected or actual outbreak of avian influenza or Newcastle disease;
- (d) has, during all stages of its production, been handled, stored and transported in accordance with the health requirements of Council Directive 92/45/EEC and strictly separated from meat:
 - not conforming to the requirements laid down in Directive 92/45/EEC,
 - not conforming to the requirements laid down in Decision 2000/585/EC.

2. In the case of fresh meat or plucked and eviscerated wild game birds the meat has undergone a post-mortem inspection at the wild game processing house in accordance with the requirements of Directive 92/45/EEC, has been passed as fit for human consumption and an equivalent health mark to the one laid down according to Chapter VII of Annex I to Directive 92/45/EEC has been applied to the meat and packaging⁽⁴⁾.

⁽³⁾ For railway wagons or lorries, the registration number should be given, where known. For bulk containers indicate the number of the container. The number of the seal must also be indicated.

⁽⁴⁾ When there is a cross-reference in Annex I of Commission Decision 2000/585/EC, then the Version No referred to in the relevant and current Decision for fresh meat of the corresponding susceptible domestic species must be included.

3. In the case of unplucked and uneviscerated wild game birds ⁽¹⁾:
- (a) the meat has been chilled to +4 °C or below for a maximum time of 15 days prior to the intended time of import, but has not been frozen or deep-frozen ⁽¹⁾;
 - (b) an official veterinary health inspection on a representative sample of the carcasses has been carried out, and
 - no abnormalities were detected other than injuries associated with hunting and minor localised malformations and anomalies with no public health significance,
 - or
 - signs of disease or other abnormalities, as detailed in Annex I, Chapter V, to Council Directive 92/45/EEC, which rendered the carcasses unfit for human consumption were detected, as a result of which the remainder of the consignment has been inspected and all affected carcasses excluded from export;
 - (c) the meat has been identified by the fixation of an official mark of origin, the details of which are recorded in paragraph 1 above.
4. The transport vehicles or containers and loading conditions of this consignment meet the hygiene requirements laid down in Directive 92/34/EEC.
5. The meat was obtained from wild game birds which were killed between ... and ... (dates of killing).

V. Specific conditions

.....

by the following means of transport ⁽⁴⁾:

.....

Railway wagon	Lorry	Aircraft	Ship

IV. Health information

I, the undersigned, official veterinarian, certify that:

1. The meat of wild land mammals described above:

- (a) was obtained from animals that were killed in the territory described in Annex I to Commission Decision 2000/585/EC with code ...version No ...⁽⁵⁾ and in a hunting area where during the last 30 days there were no animal health restrictions because of outbreaks of disease to which these animals are susceptible;
- (b) was obtained from animals which were transported within 12 hours of killing to a collection centre and/or an approved wild game processing house for chilling;
- (c) was obtained in a collection centre and/or approved wild game processing house situated in a region not subject to animal health restrictions because of outbreaks of disease to which the animals are susceptible;
- (d) has undergone a post-mortem health inspection at the approved wild game processing house in accordance with the requirements of Directive 92/45/EEC, has been passed as fit for human consumption and an equivalent health mark as laid down according to Chapter VII of Annex I to this Directive has been applied to the meat and packaging;
- (e) has during all stages of its production, been handled, stored and transported in accordance with the public health requirements of Directive 92/45/EEC and strictly separated from meat:
 - not conforming to the requirements laid down in Directive 92/45/EEC,
 - not conforming to the requirements laid down in Decision 2000/585/EC.

2. The transport vehicles or containers and loading conditions of this consignment meet the hygiene requirements laid down in Directive 92/45/EEC.

3. The meat has undergone a trichinae examination by a digestion method in accordance with Council Directive 77/96/EEC⁽⁶⁾, with a negative result.

4. The meat was obtained from wild zebras which were hunted between ... and ... (dates of killing).

⁽⁴⁾ For railway wagons or lorries, the registration number should be given, where known. For bulk containers indicate the number of the container. The number of the seal must also be indicated.

⁽⁵⁾ When there is a cross-reference in Annex I to Commission Decision 2000/585/EC, then the version No referred to in the relevant and current Decision for fresh meat of the corresponding susceptible domestic species must be included.

⁽⁶⁾ Only for species susceptible to trichinosis.

⁽⁵⁾ Excluding offal.

III. Destination of meat

Name and address of consignee:

The meat will be sent to (country and place of destination):

by the following means of transport ⁽⁶⁾:

Railway wagon	Lorry	Aircraft	Ship

IV. Health information:

I, the undersigned, official veterinarian, certify that:

1. The territory described in Annex I to Commission Decision 2000/585/EC with code ... version No ... ⁽⁷⁾ has been free from foot-and-mouth disease and rinderpest for the previous 12 months, and during the same period, no vaccination against any of these diseases has taken place.
2. The farmed game meat described above is obtained from animals:
 - (a) which have remained in the territory as referred to under IV.1 for at least three months preceding slaughter or since birth in the case of animals less than three months old;
 - (b) which have not been vaccinated against foot-and-mouth disease or rinderpest during the preceding 12 months;
 - (c) which come from holdings around which within a radius of 10 km including where appropriate the territory of a neighbouring country there has been no case of foot-and-mouth disease for the previous 30 days;
 - (d) which have been kept separate from wild cloven-hoofed game since birth ⁽⁸⁾;
 - (e) which come from a holding which has been free from restrictions due to an outbreak of brucellosis for the previous six weeks;
 - (f) which, during transport to the approved slaughterhouse ⁽⁴⁾/approved game establishment ⁽⁴⁾, and whilst awaiting slaughter, did not come into contact with animals which do not comply with the conditions required for export of their meat to the Community.
3. The transport used to convey the animals was cleaned and disinfected before loading.
4. The animals come from a holding which receives regular veterinary inspections to diagnose diseases transmissible to humans or animals and random tests are carried out on meat derived from animals originating from the holding for the presence of residues in excess of permitted levels and these results have been collected and evaluated by the central services.
5. (a) (i) The animals were slaughtered on the holding of origin, following authorisation by an official veterinarian of the competent authority of ... (exporting country) who has provided a written statement that in his opinion an unacceptable risk would have been posed to the welfare of the animals or to their handlers by the transport of the live animals to an approved slaughterhouse or approved game establishment;

⁽⁶⁾ For railway wagons or lorries, the registration number should be given, where known. For bulk containers indicate the number of the container. The number of the seal must also be indicated.

⁽⁷⁾ Version No referred to in the relevant and current Decision for fresh meat of the corresponding susceptible domestic species must be included.

⁽⁸⁾ Not applicable when established in Chapter V.

- (ii) The slaughtered animals were accompanied on arrival at the approved slaughterhouse (*)/approved game establishment (*) by a veterinary certificate issued by the veterinarian responsible for the holding of origin where the animals were slaughtered, stating:
 - that the holding had been inspected and authorised by the competent authority of ... (exporting country) for the slaughter of game animals,
 - that the animals passed a veterinary ante-mortem inspection in the 24 hours immediately prior to slaughter and, in particular, have shown no evidence of foot-and-mouth disease,
 - that the herd receives a regular veterinary inspection,
 - that the herd is not under any restrictions due to animal health problems,
 - that the bleeding of the animals was performed correctly,
 - the time and date of slaughter;
 - (iii) The carcasses of the animals were transported under hygienic conditions to the approved slaughterhouse (*)/approved game establishment (*);
 - (iv) Where more than one hour elapsed between the time of slaughter indicated on the veterinary certificate that accompanied the slaughtered animals and their arrival at the approved slaughterhouse (*)/approved game establishment (*), the vehicle used was checked on its arrival and found to be at a temperature of between 0 °C; and + 4 °C;
 - (v) The slaughtered animals were eviscerated within three hours of the time of slaughter recorded on the accompanying veterinary certificate;
- or:
- (b) (i) The animals were slaughtered in an approved slaughterhouse (*)/approved game establishment (*) meeting the conditions equivalent to those laid down in Council Directive 91/495/EEC;
 - (ii) The animals passed a veterinary ante-mortem inspection in the 24 hours immediately prior to slaughter which included a detailed examination for signs indicative of foot-and-mouth disease.
6. The meat was handled under conditions of hygiene meeting those established by Article 6 of Directive 91/495/EEC.
7. The meat has undergone a post-mortem inspection and been passed as fit for human consumption.
8. The meat was cut (*)/stored (*) in establishments approved for the purpose by the competent authority of ... (exporting country) as meeting the conditions established by Article 6 of Directive 91/495/EEC.
9. The premises used for slaughtering, handling or cutting were thoroughly cleaned and disinfected under official supervision before being used for the production of the meat referred to in this certificate.
10. — The meat referred to in the certificate (*)
- The packaging of the meat referred to in the certificate (*)
- bears a mark proving that:
- the meat comes from animals dressed and inspected in an approved slaughterhouse (*)/approved game establishment (*),
 - the meat was cut in an approved cutting plant (*)
11. The means of transport and the loading conditions of this consignment of meat met the conditions of hygiene established by Article 6 of Directive 91/495/EEC.
12. The meat comes from a slaughterhouse or an establishment not under restrictions for any of the diseases referred to in paragraph 1, and around which within a radius of 10 km there have been no outbreaks of these diseases in the previous 30 days.
13. The animals were slaughtered between ... and ... (dates of slaughter).

V. Specific conditions

I, the undersigned, official veterinarian, certify that:

(Specific conditions when required in Annex II and described in Annex IV to Commission Decision 2000/585/EC) (*)

VI. Attestation on protection of animals

I, the undersigned, official veterinarian, certify that:

1. I have read and understood Council Directive 93/119/EC.
2. The meat is derived from animals which have been treated in the slaughterhouse before and at the time of slaughter or killing in accordance with the relevant provisions of Directive 93/119/EC.

IV. Health information

I, the undersigned, official veterinarian, certify that:

1. The rabbit meat described above is obtained from:

- (a) animals which have remained in the territory described in Annex I to Commission Decision 2000/585/EC with code ... version No ... for at least six weeks before being slaughtered or since birth in the case of animals less than six weeks old;
- (b) animals from farms or areas where during the last 40 days there have been no animal health restrictions for viral haemorrhagic disease, tularaemia and myxomatosis;
- (c) batches of animals which were so identified that their holdings of origin could be traced;
- (d) animals which, during transport to the approved slaughterhouse ⁽⁴⁾/approved game establishment ⁽⁴⁾ and whilst awaiting slaughter, did not come into contact with animals which do not comply with the conditions required for export of their meat to the Community.

2. The transport used to convey the animals was cleaned and disinfected before loading.

3. The animals come from a holding which receives regular veterinary inspections to diagnose diseases transmissible to humans or animals and random tests are carried out on meat derived from animals originating from the holding for the presence of residues in excess of permitted levels and these results have been collected and evaluated by the central service.

4. (a) The animals were accompanied on arrival at the approved slaughterhouse ⁽⁴⁾/game processing establishment ⁽⁴⁾ by a veterinary certificate issued by the veterinarian responsible for the holding of origin where the animals were slaughtered, stating that:

- the animals passed a veterinary ante-mortem inspection in accordance with the requirements of Article 3 and Annex I, Chapter 1, to Council Directive 91/495/EEC on the holding(s) of origin within the 24 hours prior to loading,

and

- passed an ante-mortem inspection at the approved slaughterhouse ⁽⁴⁾/approved game establishment ⁽⁴⁾ intended to detect injuries associated with transport;

or

(b) The animals passed an ante-mortem inspection under veterinary supervision in accordance with the requirements of Article 3 and Annex I, Chapter 1, to Directive 91/495/EEC at the approved slaughterhouse ⁽⁴⁾/approved game establishment ⁽⁴⁾ in the 24 hours prior to slaughter.

⁽²⁾ For railway wagon or lorries, the registration number should be given, where known. For bulk containers indicate the number of the container. The number of the seal must also be indicated.

5. The animals were slaughtered in an approved slaughterhouse ⁽⁴⁾/approved game establishment ⁽⁴⁾ meeting the conditions laid down in Directive 91/495/EEC.
6. The meat was handled under conditions of hygiene meeting those established by Article 3 of Directive 91/495/EEC.
7. The meat has undergone a post-mortem inspection in accordance with the requirements of Article 3 of Directive 91/495/EEC and has been passed as fit for human consumption.
8. The meat was cut ⁽⁴⁾/stored ⁽⁴⁾ in establishments approved for the purpose by the competent authority of ... (exporting country) as meeting the conditions established by Article 3 of Directive 91/495/EEC.
9. The premises used for slaughtering, handling or cutting were thoroughly cleaned and disinfected under official supervision before being used for the production of the meat referred to in this certificate.
10. — The meat referred to in the certificate ⁽⁴⁾
 — The packaging of the meat referred to in the certificate ⁽⁴⁾
 bears a mark proving that:
 — the meat comes from animals dressed and inspected in an approved slaughterhouse ⁽⁴⁾/approved game establishment ⁽⁴⁾,
 — the meat was cut in an approved cutting plant ⁽⁴⁾.
11. The means of transport and the loading conditions of this consignment met the conditions of hygiene established by Article 3 of Directive 91/495/EEC.
12. The animals were slaughtered between ... and ... (dates of slaughter).

V. Specific conditions

I, the undersigned, official veterinarian, certify that:

(Specific conditions when required in Annex II and described in Annex IV to Commission Decision 2000/585/EC) ⁽⁴⁾

VI. Attestation on protection of animals

I, the undersigned, official veterinarian, hereby declare that:

1. I have read and understood Council Directive 93/119/EC.
2. The meat is derived from animals which have been treated in the slaughterhouse before and at the time of slaughter or killing in accordance with the relevant provisions of Directive 93/119/EC.

MODEL 1

ANIMAL AND PUBLIC HEALTH CERTIFICATE

The meat of 'farmed game birds' ⁽¹⁾, intended for consignment to the European Community

Note for the importer: this certificate is only for veterinary purposes and has to accompany the consignment until it reaches the border inspection post.

Code No ⁽²⁾

Country of destination:

Exporting country ⁽³⁾: Code of territory:

Ministry:

Competent issuing authority:

I. Identification of meat

Lot No	Species	Nature of meat	Nature of cuts	Nature of packaging	Number of cuts or packages	Net weight

II. Origin of meat

Address(es) and veterinary approval number(s) of the approved slaughterhouse ⁽⁴⁾/approved game establishments: ⁽⁴⁾

Address(es) and veterinary approval number(s) of the approved cutting plant(s):

Address(es) and veterinary approval number(s) of the approved cold store(s):

Address(es) of place(s) of loading:

Name and address of consignor:

III. Destination of meat

Name and address of consignee:

⁽¹⁾ 'Farmed game birds' as it applies to farmed game shall have the meaning ascribed to it in Article 2(3) of Council Directive 91/495/EEC and applies to quail, pigeons, pheasants, partridges and any other game birds not mentioned excluding ratites.

⁽²⁾ Issued by the competent authority.

⁽³⁾ Name of the country of origin which must be the same as the country of export.

⁽⁴⁾ Delete as appropriate.

The meat will be sent to (country and place of destination):

by the following means of transport ⁽⁵⁾:

Railway wagon	Lorry	Aircraft	Ship

IV. Health information

I, the undersigned, official veterinarian, certify that:

1. The territory described in Annex I to Commission Decision 2000/585/EC with code version No ... is free from avian influenza and Newcastle disease, as defined in the International Animal Health Code of the Office International des Epizooties.
2. The meat described above is obtained from farmed game birds which:
 - (a) have been held in the territory described under IV.1 since hatching or which were imported as day-old chicks;
 - (b) come from holdings:
 - which were not under animal health restrictions in connection with any disease to which poultry are susceptible,
 - around which, within a radius of 10 km, including where appropriate the territory of a neighbouring country, there have been no outbreaks of avian influenza or Newcastle disease for at least 30 days;
 - (c) were not slaughtered in the context of any animal health scheme for the control or eradication of poultry diseases;
 - (d) were ⁽⁶⁾/were not ⁽⁶⁾ vaccinated against Newcastle disease using a live vaccine during the 30 days preceding slaughter;
 - (e) during transport to the approved slaughterhouse ⁽⁴⁾/approved game establishment ⁽⁴⁾ did not come into contact with poultry or game birds suffering from avian influenza or Newcastle disease.
3. The animals come from a holding which receives regular veterinary inspections to diagnose diseases transmissible to humans or animals and random tests are carried out on meat derived from animals originating from the holding for the presence of residues in excess of permitted levels and these results have been collected and evaluated by the central services.
4. The meat:
 - (a) comes from an approved slaughterhouse ⁽⁴⁾/approved game establishment ⁽⁴⁾ which, at the time of slaughter, was not under restrictions due to a suspected or actual outbreak of avian influenza or Newcastle disease and around which, within a radius of 10 km, there have been no outbreaks of avian influenza or Newcastle disease in the previous 30 days;
 - (b) has not been in contact, at any time during slaughter, cutting, storage or transport with meat which does not fulfil the requirements of Council Directive 91/495/EEC.
5. The birds from which the meat referred to in this certificate was derived:
 - (a) were accompanied on arrival at the approved slaughterhouse ⁽⁴⁾/approved game establishment ⁽⁴⁾ by a veterinary certificate issued by the veterinarian responsible for the holding of origin, stating that they had passed a veterinary ante-mortem inspection in accordance with the requirements of Article 3 of Directive 91/495/EEC on the holding(s) of origin within the 72 hours prior to loading;

⁽⁵⁾ For railways wagon or lorries, the registration number should be given, where known. For bulk containers indicate the number of the container. The number of the seal must also be indicated.

⁽⁶⁾ Delete the unnecessary reference. If the poultry have been vaccinated within 30 days before slaughter, the consignment cannot be sent to Member States or regions thereof which have been recognised in accordance with Article 12 of Directive 90/539/EEC.

or:

- (b) passed a veterinary ante-mortem inspection in accordance with the requirements of Article 8 of Directive 91/495/EEC at the approved slaughterhouse ⁽⁴⁾/approved game establishment ⁽⁴⁾ in the 72 hours immediately prior to slaughter.
6. The birds were slaughtered in an approved slaughterhouse ⁽⁴⁾/approved game establishment ⁽⁴⁾ meeting the conditions laid down in Article 8 of Directive 91/495/EEC.
7. The meat was handled under conditions of hygiene meeting those established by Article 8 of Directive 91/495/EEC.
8. The meat has undergone a post-mortem inspection in accordance with the requirements of Article 8 of Directive 91/495/EEC and has been passed as fit for human consumption.
9. The meat was cut ⁽⁴⁾/stored ⁽⁴⁾ in establishments approved for the purpose by the competent authority of ... (exporting country) as meeting the conditions established by Article 8 of Directive 91/495/EEC.
10. The premises used for slaughtering, handling or cutting were thoroughly cleaned and disinfected under official supervision before being used for the production of the meat referred to in this certificate.
11. — The meat referred to in the certificate ⁽⁴⁾
— The packaging of the meat referred to in the certificate ⁽⁴⁾
bears a mark proving that:
- the meat comes from animals slaughtered, dressed and inspected in an approved slaughterhouse ⁽⁴⁾/approved game establishment ⁽⁴⁾,
— the meat was cut in an approved cutting plant ⁽⁴⁾.
12. The means of transport and the loading conditions of meat of this consignment met the hygiene requirements established by Article 8 of Directive 91/495/EEC.

V. Specific conditions

I, the undersigned, official veterinarian, certify that: ...

(Specific conditions when required in Annex II and described in Annex IV to Decision 2000/585/EC ⁽⁴⁾)

VI. Attestation on protection of animals

I, the undersigned, official veterinarian, hereby declare that:

1. I have read and understood Council Directive 93/119/EC.
2. The meat is derived from animals which have been treated in the slaughterhouse before and at the time of slaughter or killing in accordance with the relevant provisions of Directive 93/119/EC.

IV. Health and wholesomeness information

I, the undersigned, official veterinarian, certify that:

1. The territory described in Annex I to Commission Decision 2000/585/EC with code ... , version No ... ⁽⁸⁾ during the last 12 months has been free from classical swine fever, African swine fever, swine vesicular disease, foot-and-mouth disease and porcine enteroviral encephalomyelitis (Teschén disease) and that no vaccinations have been carried out against any of these diseases during the last 12 months.
2. The wild swine meat described above:
 - (a) was obtained from animals that were killed in the territory referred to under IV.1 where during the last 60 days there have been no animal health restrictions for diseases to which swine are susceptible;
 - (b) originated from animals that were killed at least 20 km distant from the borders separating another third country or part of a third country not authorised by Decision 2000/585/EC to export meat of wild swine to the Community;
 - (c) was obtained from animals, which after killing, were transported within 12 hours to a collection centre and/or approved wild game processing house for chilling;
 - (d) was obtained in a collection centre and/or an approved wild game processing house situated in a region not subject to animal health restrictions due to diseases, included in List A of communicable diseases issued by the Office International des Epizooties, to which swine are susceptible;

⁽⁶⁾ For railway wagons or lorries, the registration number should be given, where known. For bulk containers indicate the number of the container. The number of the seal must also be indicated.

⁽⁷⁾ Where the meat has to undergo a post-mortem inspection after skinning, the name and address of the game processing house of destination in the Member State must be inserted.

⁽⁸⁾ Version No referred to in the relevant and current Decision for fresh meat of the corresponding susceptible domestic species must be included.

- (c) has during all stages of its production, been handled, stored and transported in accordance with the public health requirements of Council Directive 92/45/EEC and strictly separated from meat:
- not conforming to the requirements laid down in Directive 92/45/EEC,
 - not conforming to the conditions laid down in Decision 2000/585/EC.
3. The fresh meat or skinned and eviscerated wild swine carcasses have undergone a post-mortem inspection at the approved wild game processing house in accordance with the requirements of Directive 92/45/EEC and have been passed as fit for human consumption and an equivalent health mark as laid down according to Chapter VII of Annex I to this Directive has been applied to the meat and packaging ⁽⁴⁾.
4. In the case of unskinned wild swine ⁽⁴⁾,
- (a) the viscera have undergone a post-mortem inspection in a wild game processing house which did not lead to the carcass being judged unfit for human consumption;
- (b) (i) the carcasses are intended to be transported to the final game processing house of destination to arrive within seven days of post-mortem inspection, and were chilled to, and maintained at, between -1 °C and +7 °C, before being loaded into a vehicle capable of maintaining the carcasses between these temperatures during transport ⁽⁴⁾,
- or
- (ii) the carcasses are intended to be transported to the final game processing house of destination to arrive within 15 days of post-mortem inspection, and were chilled to, and maintained, above -1 °C and not more than +1 °C, before being loaded into a vehicle capable of maintaining the carcasses between these temperatures during transport ⁽⁴⁾;
- (c) measures have been taken to allow for the clear identification of this meat by way of fixation of an official mark of origin, the details of which are recorded in paragraph I.
5. The transport vehicles or containers and loading conditions of this consignment meet the hygiene requirements laid down in Directive 92/45/EEC.
6. The meat has undergone a trichinae examination by a digestion method in accordance with Council Directive 77/96/EEC with a negative result.
7. The meat was obtained from wild game which were killed between ... and ... (dates of killing).
8. The meat has been produced in accordance with the provisions of Annex I to Directive 92/45/EEC as they apply to meat of wild swine.

ANNEX IV

SPECIFIC CONDITIONS TO BE PROVIDED BY THE EXPORTING TERRITORY WHEN REQUIRED IN ANNEX II IN APPLICATION OF ARTICLE 2(2)

1. The bones, and the main accessible lymphatic glands of the wild game meat, excluding offal, described above, have been removed in accordance with the requirements of Council Directive 92/45/EEC.
2. The deboned fresh meat described above originates from carcasses:
 - which have matured at an ambient temperature of more than + 2 °C for at least 24 hours before the bones were removed,
 - and
 - which had had the major lymphatic glands removed.
3. The deboned farmed game meat described above has, during all stages of its production, deboning and storage been kept strictly separate from meat not conforming to the requirements laid down in the decisions of European Community currently in force as regards export of meat to a Member State (with the exception of meat packed in boxes or cartons and kept in special storage areas).
4. Taking into account the special climatic conditions, point IV.3(a) of the present certificate model D is not applicable
5. Taking into account the special breeding conditions existing in territory as referred to under point IV.1, point IV.2(d) of the present certificate model F is not applicable
6. The farmed game bird flock from which the meat originates:
 - (a) has not been vaccinated with vaccines prepared from a Newcastle disease virus master seed which shows a higher pathogenicity than lentogenic strains of the virus;
 - (b) has undergone at slaughter, on the basis of a random sample of cloacal swabs from at least 60 birds from each flock concerned, a virus isolation test for Newcastle disease, carried out in an official laboratory, in which no avian paramyxoviruses with an Intravenous Pathogenicity Index (IVPI) of more than 0.4 were found;
 - (c) has not been in contact during the 30 days preceding slaughter with poultry or game birds which do not fulfil the conditions mentioned under points 1 and 2.
7. The wild swine meat described above was obtained from carcasses on which either:
 - (a) a virus isolation test for classical swine fever (CSF) from blood (EDTA) has been carried out with negative results⁽¹⁾; or
 - (b) a virus isolation test for CSF from the appropriate samples⁽²⁾ has been carried out with negative results⁽¹⁾; or
 - (c) the direct immunofluorescence test for CSF viral antigen has been carried out on appropriate samples⁽²⁾ with negative results⁽¹⁾.
8. The animals have been plucked and eviscerated⁽¹⁾/The animals are unplucked and uneviscerated but they will be transported by aeroplane⁽¹⁾.
9. The animals have been skinned and eviscerated⁽²⁾/The animals are unskinned and eviscerated but they will be transported by aeroplane⁽¹⁾.

⁽¹⁾ Delete as appropriate

⁽²⁾ Appropriate sample means: a sample of tonsil and of spleen plus a sample of ileum or kidney and a sample of at least one of the following lymph nodes: retropharyngeal, parotid, mandibular or mesenteric lymph nodes.

The meat will be sent to (country and place of destination): OSLO, NORWAY.
by the following means of transport ⁽⁶⁾:

Railway wagon	Lorry	Aircraft	Ship
			CONTAINER NO: MAEU5686077 SEAL NO: ML-NA0008766

Name and address of game processing house of destination: ⁽⁷⁾ Not applicable

⁽¹⁾ Excluding offal.

⁽²⁾ Issued by the competent authority.

⁽³⁾ Name of country of origin which must be the same as the country of export.

⁽⁴⁾ Delete as appropriate.

⁽⁵⁾ In the game processing house of destination in a Member State the meat must be skinned and then undergo a post-mortem inspection. It cannot bear the Health mark unless it has been declared fit for human consumption.

⁽⁶⁾ For railway wagons or lorries, the registration number should be given, where known. For bulk containers indicate the number of the container. The number of the seal must also be indicated.

⁽⁷⁾ Where the meat has to undergo a post-mortem inspection after skinning, the name and address of the game processing house of destination in the Member State must be inserted.

IV. Health information:

I, the undersigned, official veterinarian, certify that:

1. The territory described in Annex I to Commission Decision 2000/585/EC with code NA-01 version No 01/00 ⁽⁸⁾ has been free from foot-and-mouth disease and rinderpest for the previous 12 months, and during the same period, no vaccination against any of these diseases has taken place.
2. The wild game meat described above:
 - (a) was obtained from animals which were killed in the territory as referred to under Section IV.1 and in a hunting area where during the last 60 days there have been no animal health restrictions because of outbreaks of disease to which game animals are susceptible;
 - (b) originated from animals that were killed at least 20 km distant from the borders of another third country or part of a third country not authorised to export wild game meat to the Community;
 - (c) was obtained from animals, which were transported within 12 hours of killing to a collection centre and / or approved wild game processing house for chilling;
 - (d) was handled in a collection centre and / or an approved wild game processing house situated in an area not subject to animal health restrictions for list A diseases of the Office International des Epizooties to which the animals are susceptible;
 - (e) has during all stages of its production, been handled, stored and transported in accordance with the public health requirements of Council Directive 92/45/EEC and strictly separated from meat:
 - not conforming to the requirements laid down in Directive 92/45/EEC,
 - not conforming to the requirements laid down in Decision 2000/585/EC.
3. In the case of fresh meat or skinned and eviscerated or deboned and skinned wild game, the meat has undergone a post-mortem inspection at the approved wild game processing house in accordance with the requirements of Directive 92/45/EEC, has been passed as fit for human consumption, and an equivalent health mark as laid down according to Chapter VII of Annex I to Directive 92/45/EEC has been applied to the meat and packaging ⁽⁴⁾.
4. In the case of unskinned large game ⁽⁴⁾,
 - (a) the viscera have undergone a post-mortem inspection in a wild game processing house, which did not lead to the carcass being judged unfit for human consumption;
 - (b) the carcasses:-
 - (i) - are intended to be transported to the final game processing house of destination to arrive within seven days of post-mortem inspection, and
 - were chilled to, and maintained at, between -1 °C and +7 °C, before being loaded into a vehicle capable of maintaining the carcasses at these temperatures during transport ⁽⁴⁾;
 - or
 - (ii) - are intended to be transported to the final game processing house of destination to arrive within 15 days of post-mortem inspection, and
 - were chilled to, and maintained, between -1 °C and +1 °C, before being loaded into a vehicle capable of maintaining the carcasses at these temperatures during transport ⁽⁴⁾;
 - (c) measures have been taken to allow for the clear identification of the meat by fixation of an official mark of origin, the details of which are recorded in paragraph I above.
5. The transport vehicles or containers and loading conditions of this consignment meet the hygiene requirements laid down in Directive 92/45/EEC.
6. The meat was obtained from wild game which was killed between and (dates of killing).

V. Specific conditions:

I, the undersigned, official veterinarian, certify that:

1. The bones and the main lymphatic glands of the wild game meat, excluding offal, described above, have been removed in accordance with the requirements of Council Directive 92/45/EEC.
2. The deboned fresh meat described above originates from carcasses:-
 - which have matured at an ambient temperature of more than +2°C for at least 24 hours before the bones were removed.
 - and
 - which had the major lymphatic glands removed.

IV. Attestation of health/ Angaben zum Gesundheitszustand:

I, the undersigned, official veterinarian, certify that/ Der unterzeichnete amtliche Tierarzt bescheinigt folgendes::

1. The territory described in Annex I to Commission Decision 1999/283/EC with code NA-01, version No 01/00, has been free for 12 months from rinderpest and foot-and-mouth disease and during the same period, no vaccinations against these diseases have taken place; / Das in Anhang I der Entscheidung 1999/283/EG der Kommission beschriebene Gebiet mit dem Code NA-01, Fassung 01/00, war während der letzten 12 Monate frei von Rinderpest und Maul- und Klauenseuche und im selben Zeitraum ist gegen keine der genannten Seuchen geimpft worden.
2. The fresh meat described above is obtained from bovine animals/ Das vorstehend beschriebene frische Fleisch stammt von Rindern, die folgende Anforderungen erfüllen:
 - which have remained in the territory as described under IV.1 for at least three months before being slaughtered or since birth in the case of animals less than three months old / Sie sind zumindest in den drei Monaten vor ihrer Schlachtung bzw. falls die Tiere weniger als drei Monate alt sind von Geburt an ununterbrochen in dem Gebiet gemäß Abschnitt IV Nummer 1 gehalten worden
 - which come from holdings in which there has been no outbreak of foot-and-mouth disease in the previous 30 days, and around which within a radius of 10 km there has been no case of foot-and-mouth disease for 30 days / sie stammen aus Betrieben, in denen in den letzten 30 Tagen kein Fall von Maul- und Klauenseuche und um die im Umkreis von 10 km in den letzten 30 Tagen kein Fall von Maul- und Klauenseuche aufgetreten ist;
 - which have been transported from their holdings of origin to the approved slaughterhouse concerned without contact with animals which do not comply with the conditions required for export of their meat to the Community, and, if conveyed in a means of transport, that the latter has been cleaned and disinfected before loading / sie sind von ihrem Herkunftsbetrieb zu dem zugelassenen Schlachthof befördert worden, ohne mit Tieren in Berührung gekommen zu sein, die die Anforderungen für die Ausfuhr ihres Fleisches in die Gemeinschaft nicht erfüllen, und falls sie in einem Transportmittel befördert wurden, ist dieses vor dem Verladen der Tiere gereinigt und desinfiziert worden;
 - which have passed the ante mortem health inspection referred to in Council Directive 72/462/EEC at the slaughterhouse during the 24 hours before slaughter and, in particular, have shown no evidence of foot-and-mouth disease / sie sind in den 24 Stunden vor ihrer Schlachtung im Schlachthof der Schlachtieruntersuchung gemäß der Richtlinie 72/462/EWG des Rates unterzogen und für frei von Anzeichen der Maul- und Klauenseuche befunden worden.
3. The fresh meat described above is obtained from an establishment or establishments in which, after a case of foot-and-mouth disease has been diagnosed, further preparation of meat for export to the Community has been authorised only after slaughter of all animals present, removal of all meat, and the total cleaning and disinfection of the establishments under the control of an official veterinarian./ Das vorstehend beschriebene frische Fleisch stammt aus einem Betrieb bzw. aus Betrieben, in dem (denen) nach Feststellung eines Falls von Maul- und Klauenseuche jede weitere Bearbeitung von Fleisch zur Ausfuhr in die Gemeinschaft erst genehmigt wurde, nachdem alle vorhandenen Tiere getötet, alles Fleisch unschädlich beseitigt und der Betrieb (die Betriebe) unter der Aufsicht eines amtlichen Tierarztes umfassend gereinigt und desinfiziert worden ist (sind).

V. Supplementary guarantees / Zusätzliche Garantien:

The meat fulfils the requirements of de-boned fresh meat as described in Article 1(b) of Decision 1999/283/EC and originates from carcasses which have matured at a room temperature of more than +2° C for at least 24 hours after slaughter and before the bones were removed; has had the major lymphatic glands removed; has, during all stages of its production, de-boning, and storage been kept strictly separate from meat not conforming to the requirements laid down in the decisions of the European Community currently in force as regards import of meat (with the exception of meat packed in boxes or cartons and kept in special storage areas)/ Das Fleisch erfüllt die Anforderungen für entbeintes Fleisch gemäß Artikel 1 Buchstabe (b) der Entscheidung 1999/283/EG und wurde von Schlachtkörpern gewonnen, die nach der Schlachtung und vor dem Entbeinen für mindestens 24 Stunden bei einer Raumtemperatur von mindestens + 2 °C gereift sind. Es wurde von allen großen Lymphdrüsen befreit und ist auf allen Stufen seiner Gewinnung, Entbeinung und Lagerung streng von Fleisch getrennt gehalten worden, das den geltenden Einfuhrvorschriften der Gemeinschaft für Fleisch nicht entspricht (ausgenommen Fleisch, das in Kisten oder Kartons verpackt ist und in besonderen Lagerbereichen aufbewahrt wird).

VI. Attestation on protection of animals / Tierschutzklärung:

I, the undersigned official veterinarian, hereby declare that / Der unterzeichnete amtliche Tierarzt erklärt hiermit, daß:

1. I have read and understood Council Directive 93/119/EG / er die Richtlinie 93/119/EG des Rates gelesen und verstanden hat;
2. The meat is derived from animals which have been treated in the slaughterhouse before and at the time of slaughter or killing in accordance with the relevant provisions of Council Directive 93/119/EC / das Fleisch von Tieren stammt, die im Schlachthof vor und bei der Schlachtung oder Tötung gemäß den einschlägigen Bestimmungen der Richtlinie 93/119/EG behandelt wurden.

Darüber hinaus muß die Plombennummer angegeben sein.

IV. Attestation of health/ Angaben zum Gesundheitszustand

I, the undersigned official veterinarian, certify that / Der unterzeichnete amtliche Tierarzt bescheinigt folgendes:

1. The territory described in Annex I to Commission Decision 1999/283/EC with code NA-01, version No 01/00, has been free for 12 months from rinderpest and foot-and-mouth disease and during the same period, no vaccinations against these diseases have taken place; / Das in Anhang I der Entscheidung 1999/283/EG der Kommission beschriebene Gebiet mit dem Code NA-01, Fassung 01/00, war während der letzten 12 Monate frei von Rinderpest und Maul- und Klauenseuche, und im selben Zeitraum ist gegen keine der genannten Seuchen geimpft worden.
2. The fresh meat described above is obtained from ovine and caprine animals / Das vorstehend beschriebene frische Fleisch stammt von Schafen/Ziegen, die folgende Anforderungen erfüllen:
 - > which have remained in the territory as described under IV.1 for at least three months before being slaughtered or since birth in the case of animals less than three months old / Sie sind zumindest in den drei Monaten vor ihrer Schlachtung bzw. falls die Tiere weniger als drei Monate alt sind von Geburt an ununterbrochen in dem Gebiet gemäß Abschnitt IV Nummer 1 gehalten worden;
 - > which come from holdings in which there has been no outbreak of foot-and-mouth disease in the previous 30 days, and around which within a radius of 10 km there has been no case of foot-and-mouth disease for 30 days / sie stammen aus Betrieben, in denen in den letzten 30 Tagen kein Fall von Maul- und Klauenseuche und um die im Umkreis von 10 km in den letzten 30 Tagen kein Fall von Maul- und Klauenseuche aufgetreten ist;
 - > which have been transported from their holdings of origin to the approved slaughterhouse concerned without contact with animals which do not comply with the conditions required for export of their meat to the Community, and, if conveyed in a means of transport, that the latter has been cleaned and disinfected before loading / sie sind von ihrem Herkunftsbetrieb zu dem zugelassenen Schlachthof befördert worden, ohne mit Tieren in Berührung gekommen zu sein, die die Anforderungen für die Ausfuhr ihres Fleisches in die Gemeinschaft nicht erfüllen, und falls sie in einem Transportmittel befördert wurden, ist dieses vor dem Verladen der Tiere gereinigt und desinfiziert worden;
 - > which have passed the ante mortem health inspection referred to in Council Directive 72/462/EEC at the slaughterhouse during the 24 hours before slaughter and, in particular, have shown no evidence of foot-and-mouth disease / sie sind in den 24 Stunden vor ihrer Schlachtung im Schlachthof der Schlachtieruntersuchung gemäß der Richtlinie 72/462/EWG des Rates unterzogen und für frei von Anzeichen der Maul- und Klauenseuche befunden worden;
 - > which have not come from a holding which for health reasons is subject to prohibition as a result of an outbreak of ovine or caprine brucellosis during the previous six weeks / Sie stammen nicht aus einem Betrieb, der in den letzten sechs Wochen aufgrund eines Ausbruchs von Schaf- und Ziegenbrucellose gesperrt war.
3. The fresh meat described above is obtained from an establishment or establishments in which, after a case of foot-and-mouth disease has been diagnosed, further preparation of meat for export to the Community has been authorised only after slaughter of all animals present, removal of all meat, and the total cleaning and disinfection of the establishments under the control of an official veterinarian / Das vorstehend beschriebene frische Fleisch stammt aus einem Betrieb bzw. aus Betrieben, in dem (denen) nach Feststellung eines Falls von Maul- und Klauenseuche jede weitere Bearbeitung von Fleisch zur Ausfuhr in die Gemeinschaft erst genehmigt wurde, nachdem alle vorhandenen Tiere getötet, alles Fleisch unschädlich beseitigt und der Betrieb (die Betriebe) unter der Aufsicht eines amtlichen Tierarztes umfassend gereinigt und desinfiziert worden ist (sind).

V. Supplementary guarantees / Zusätzliche Garantien

The meat fulfils the requirements of de-boned fresh meat as described in Article 1(b) of Decision 1999/283/EC and originates from carcasses which have matured at a room temperature of more than +2° C for at least 24 hours after slaughter and before the bones were removed; has had the major lymphatic glands removed; has, during all stages of its production, de-boning, and storage been kept strictly separate from meat not conforming to the requirements laid down in the decisions of the European Community currently in force as regards import of meat (with the exception of meat packed in boxes or cartons and kept in special storage areas). / Das Fleisch erfüllt die Anforderungen für entbeintes Fleisch gemäß Artikel 1 Buchstabe (b) der Entscheidung 1999/283/EG und wurde von Schlachtkörpern gewonnen, die nach der Schlachtung und vor dem Entbeinen für mindestens 24 Stunden bei einer Raumtemperatur von mindestens + 2 °C gereift sind. Es wurde von allen großen Lymphdrüsen befreit und ist auf allen Stufen seiner Gewinnung, Entbeinung und Lagerung streng von Fleisch getrennt gehalten worden, das den geltenden Einfuhrvorschriften der Gemeinschaft für Fleisch nicht entspricht (ausgenommen Fleisch, das in Kisten oder Kartons verpackt ist und in besonderen Lagerbereichen aufbewahrt wird).

COMMISSION DECISION

of 7 March 2003

amending Decisions 1999/283/EC and 2000/585/EC as regards Botswana

(notified under document number C(2003) 713)

(Text with EEA relevance)

(2003/163/EC)

THE COMMISSION OF THE EUROPEAN COMMUNITIES,

Having regard to the Treaty establishing the European Community,

Having regard to Council Directive 72/462/EEC of 12 December 1972 on health and veterinary inspection problems upon importation of bovine, ovine and caprine animals and swine, fresh meat or meat products from third countries⁽¹⁾, as last amended by Regulation (EC) No 1452/2001⁽²⁾, and in particular Article 14(3) thereof,

Having regard to Council Directive 92/45/EC of 16 June 1992 on public health and animal health problems relating to the killing of wild game and the placing on the market of wild game meat⁽³⁾, as last amended by Directive 97/79/EC⁽⁴⁾, and in particular Article 16(3) thereof,

Having regard to Council Directive 92/118/EEC of 17 December 1992 laying down animal health and public health requirements governing trade in and imports into the Community of products not subject to the said requirements laid down in specific Community rules referred to in Annex A (I) to Directive 89/662/EEC and, as regards pathogens, to Directive 90/425/EEC⁽⁵⁾, as last amended by Commission Decision 2003/42/EC⁽⁶⁾, and in particular Article 10,

Whereas:

- (1) The animal health and veterinary certification conditions for imports of fresh meat from certain African countries are laid down by Commission Decision 1999/283/EC⁽⁷⁾, as last amended by Decision 2003/74/EC⁽⁸⁾.
- (2) The animal and public health and veterinary certification conditions for import of wild and farmed game meat and rabbit meat from third countries are laid down by Commission Decision 2000/585/EC⁽⁹⁾, as last amended by Decision 2003/74/EC.

(3) An outbreak of foot-and-mouth disease was confirmed in Botswana in the approved EC zone number 6 on 7 of January 2003, with the first infection on the holding thought to be 23 December 2002, and Commission Decision 2003/74/EC was adopted to suspend exports to the Community from the whole of the country of boned fresh meat of bovine, ovine and caprine species and farmed and wild ungulates produced after the presumed date of first infection, pending further information required to support regionalisation.

(4) The Botswanan authorities carried out emergency vaccination around the outbreak and further investigations, assessing the situation in the country. All the animals in the infected farms are being destroyed.

(5) The outcome of this assessment shows that the infected area is located in veterinary control zones 6 and 7, in an area of about 30 km by 40 km. In addition, four farms on the periphery of this area were included in the infected area because of the possibility of contact with animals of infected farms.

(6) No further cases of foot-and-mouth disease have been observed throughout the country.

(7) The Botswanan authorities have informed the Community that Zones 6 and 7 are the infected areas, the surrounding zones 5, 8 and 9 are considered as buffer zones, while zones 10, 11, 12, 13 and 14 should be considered free. These free areas are separated physically from the rest of the territory by fences.

(8) In this situation, the importation into the Community of de-boned and matured fresh meat excluding offal of bovine, ovine and caprine species and farmed and wild ungulates should be allowed from the zones 10, 11, 12, 13 and 14 irrespective of the date of slaughter.

(9) The measures provided for in this Decision should be reviewed within three months in particular in the light of the disease evolution and further information received from the authorities of Botswana.

(10) Decisions 1999/283/EC and 2000/585/EC should be amended accordingly.

(11) The measures provided for in this Decision are in accordance with the opinion of the Standing Committee on the Food Chain and Animal Health,

⁽¹⁾ OJ L 302, 31.12.1972, p. 28.

⁽²⁾ OJ L 198, 21.7.2001, p. 11.

⁽³⁾ OJ L 268, 14.9.1992, p. 35.

⁽⁴⁾ OJ L 24, 30.1.1998, p. 31.

⁽⁵⁾ OJ L 62, 15.3.1993, p. 19.

⁽⁶⁾ OJ L 13, 18.1.2003, p. 24.

HAS ADOPTED THIS DECISION:

Article 1

Annex I to Decision 1999/283/EC is replaced by the text in Annex I to this Decision.

Article 2

Annex II to Decision 1999/283/EC is replaced by the text in Annex II to this Decision.

Article 3

Annex I to Decision 2000/585/EC is replaced by the text in Annex III to this Decision.

Article 4

Annex II to Decision 2000/585/EC is replaced by the text in Annex IV to this Decision.

Article 5

The measures provided for in this Decision shall be reviewed within three months in the light of the evolution of the foot-and-mouth disease situation in Botswana.

Article 6

This Decision shall apply from 14 March 2003.

Article 7

This Decision is addressed to the Member States.

Done at Brussels, 7 March 2003.

For the Commission

David BYRNE

Member of the Commission

ANNEX I

ANNEX I

DESCRIPTION OF TERRITORIES OF CERTAIN AFRICAN COUNTRIES ESTABLISHED FOR ANIMAL HEALTH CERTIFICATION PURPOSES

Country	Code of territory	Version	Description of territory
Botswana	BW	01/99	The whole country
	BW-01	01/03	Veterinary disease control zones: 5, 6, 7, 8, 9, and 18.
	BW-02	01/03	Veterinary disease control zones: 10, 11, 12, 13 and 14.
Morocco	MA	01/99	The whole country
Madagascar	MG	01/99	The whole country
Namibia	NA	01/99	The whole country
	NA-01	01/00	South of the cordon fences which extends from Palgrave Point in the west to Gam in the east
Swaziland	SZ	01/99	The whole country
	SZ-01	01/01	Area west of the "red line" fences which extends northwards from the river Usutu to the frontier with South Africa west of Nkalashane and excluding the veterinary foot and mouth surveillance and vaccination control areas gazetted as a Statutory Instrument under legal notice number 51 of 2001
South Africa	ZA	01/99	The whole country
	ZA-01	03/01	Republic of South Africa excluding: — the part of the foot-and-mouth disease control area situated in the veterinary regions of Mpumalanga and Northern provinces, in the district of Ingwavuma of the veterinary region of Natal and in the border area with Botswana east of longitude 28 °, and — the district of Camperdown, in the province of KwaZulu-Natal
Zimbabwe	ZW	01/99	The whole country
	ZW-01	01/99	Veterinary regions of Mashonaland West province, Mashonaland East province (including Chikomba district), Mashonaland Central province, Manicaland province (including only Makoni district), Midlands province (including only the Gweru, Kwekwe, Shurugwi, Chirimanzu and Zvishavane districts), Masvingo province (including only the districts of Gutu and Masvingo), Matabeleland South province (including only the Insiza, Bullimamangwe, Umzingwamange, Gwanda and West Nicholson districts) and Matabeleland north province (including only the districts of Bubi and Umgusa)

ANNEX II

ANNEX II

MODELS OF ANIMAL HEALTH CERTIFICATES TO BE REQUESTED

Country	Code	Fresh meat for human consumption								Fresh meat intended for purposes other than human consumption
		Bovine		Swine		Ovine/Caprine		Solipeds

(†) MC model certificate to be completed. The letters (A, B, C, D, etc.) appearing in the tables refer to the models of animal health guarantees, as described in Annex III to the present Decision, to be applied for each category of fresh meat and origin in accordance with Article 2 of this Decision. A dash "-" indicates that imports are not authorised.

(‡) SC specific conditions. The numbers (1, 2, 3, etc.) appearing in the table refer to the special conditions to be provided by the exporting country as described in Annex IV. These supplementary guarantees must be inserted by the exporting country in section V of each model of certificate set down in Annex III.

NB:

(y) Only meat produced from animals slaughtered after 7 July 2002 and before 23 December 2002 can be imported into the Community.

(x) Meat produced from animals slaughtered after 7 March 2002 can be imported into the Community.

Re: Certification of Meat for Commercial Purposes from South Africa to Namibia

Dear Colleagues,

We would like to bring to your attention that our import permit requirements are that meat and other animal products for commercial purposes should be certified by a veterinarian.

We have noticed that some health certificates appear to be signed on behalf the state veterinarian. These have the name of the veterinarian on top and different name on the signature. If the signatories are not veterinarians this is in contravention of our import requirements.

Can you please advise whether EB Matthyse, B Crous who are signing export certificates of behalf of Drr Naude and Hovers are veterinarians authorized to do so. Consignments with discrepancies in the signatures will in future be refused entry.

Please also note a copy of the documentation must be faxed to the state veterinarian at destination.

C Bamhare (Dr) 
Import Control Section
